

Enhancing the National Capacities in Belize to Track and Report on Climate Finance

Initiative for Climate Action Transparency - ICAT

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

Deliverable C.3.

AUTHORS

ARCH Consulting Group Ltd.

- Victor Viñas Nicolas, PhD, Technical Team Lead
- Audrey Robin, Project Manager
- Hugo Ortega Rodriguez, Climate Finance and Governance Analyst

PREPARED UNDER

The Initiative for Climate Action Transparency (ICAT), supported by Austria, Canada, Germany, Italy, and the Children's Investment Fund Foundation.

Supported by:

on the basis of a decision
by the German Bundestag

 Federal Ministry
Republic of Austria
Climate Action, Environment,
Energy, Mobility,
Innovation and Technology

Environment and
Climate Change Canada

Environnement et
Changement climatique Canada

The ICAT project is hosted by the United Nations Office for Project Services (UNOPS).

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

CLIMATE FINANCE REGISTRATION FORM

CLIMATE FINANCE REGISTRATION FORM				
GENERAL INFORMATION				
Name of the government institution				
Economic Sector according to NDC (i)		<input type="checkbox"/> Land Use Change and Forestry (FOLU) <input type="checkbox"/> Forest and Biodiversity <input type="checkbox"/> Fisheries and Aquaculture <input type="checkbox"/> Energy <input type="checkbox"/> Agriculture <input type="checkbox"/> Waste Management <input type="checkbox"/> Industrial Process and Product Use (IPPU) <input type="checkbox"/> Coastal and Marine Ecosystems (Blue Carbon) <input type="checkbox"/> Tourism <input type="checkbox"/> Water Resources <input type="checkbox"/> Transportation <input type="checkbox"/> Human Health <input type="checkbox"/> Land Use, Human Settlements, and Infrastructure		
DATA OF THE PERSON COMPLETING THE REGISTRATION				
First name		Last name		Position
Phone number		E-mail		
RECORD OF THE ACTIVITY, PROGRAMME, OR PROJECT TO BE IMPLEMENTED				
Title of the activity, programme, or project (ii)				
Description/ objectives (ii) <i>Describe the objective of the intervention.</i>				
Type of intervention (ii) <i>Select the type of intervention.</i>		<input type="checkbox"/> Financial support <input type="checkbox"/> Technology development and transfer <input type="checkbox"/> Capacity building <input type="checkbox"/> Other (specify)		
<i>Describe how the intervention has contributed to technology development and transfer and/or capacity building. Complete this section only if 'technology development and transfer' and/or 'capacity building' is selected. (ii)</i>				

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

<p>Start date (ii) <i>Planned start date of intervention.</i></p>		<p>Completion date: <i>Expected date of completion of intervention.</i></p>	
<p>Sources of financing (ii) <i>Indicate where the funds for the execution of the intervention come from, if applicable.</i></p>	<ul style="list-style-type: none"> <input type="checkbox"/> Bilateral climate finance (specify) <input type="checkbox"/> Multilateral climate funds (specify) <input type="checkbox"/> Multilateral development banks (specify) <input type="checkbox"/> Domestic public climate finance (specify) <input type="checkbox"/> Private climate finance (specify) <input type="checkbox"/> International cooperation (NGO) (specify) <input type="checkbox"/> Other (specify) 	<p>Sector (ii) <i>Select NDC sector to which the intervention contributes.</i></p>	<p>Mitigation</p> <ul style="list-style-type: none"> <input type="checkbox"/> Land Use Change & Forestry <input type="checkbox"/> Agriculture <input type="checkbox"/> Energy <input type="checkbox"/> Waste Management <input type="checkbox"/> Transportation <p>Adaptation, Loss and Damage</p> <ul style="list-style-type: none"> <input type="checkbox"/> Coastal Zone & Marine Resources <input type="checkbox"/> Agriculture <input type="checkbox"/> Fisheries & Aquaculture <input type="checkbox"/> Human Health <input type="checkbox"/> Tourism <input type="checkbox"/> Biodiversity & Forest <input type="checkbox"/> Water Resources <input type="checkbox"/> Land Use, Human Settlements & Infrastructure
<p>Implementing partners, accredited entity, implementing agency (ii) <i>Indicate the partner entities, if applicable.</i></p>	<ul style="list-style-type: none"> <input type="checkbox"/> International organizations (specify) <input type="checkbox"/> Bilateral agencies (specify) <input type="checkbox"/> National state funds (specify) <input type="checkbox"/> National or commercial banks (specify) <input type="checkbox"/> Others (specify) 	<p>Subsector (ii) <i>Indicate the NDC subsector to which the intervention contributes.</i></p>	<p>Mitigation (Subsectors)</p> <p>Sector: Land Use Change & Forestry</p> <ul style="list-style-type: none"> <input type="checkbox"/> Afforestation and Reforestation <input type="checkbox"/> Forest Conservation and Reduced Deforestation (REDD/REDD+) <input type="checkbox"/> Sustainable Forest Management (SFM) <input type="checkbox"/> Agroforestry <input type="checkbox"/> Other <p>Sector: Agriculture</p> <ul style="list-style-type: none"> <input type="checkbox"/> Rice Cultivation <input type="checkbox"/> Agricultural Soils <input type="checkbox"/> Crop Production and Management <input type="checkbox"/> Agroforestry and Silvopastoral Systems <input type="checkbox"/> Carbon Sequestration in Agricultural Soils <input type="checkbox"/> Other <p>Sector: Energy</p> <ul style="list-style-type: none"> <input type="checkbox"/> Energy Transmission and Distribution <input type="checkbox"/> Energy Use in Industry <input type="checkbox"/> Energy Use in Transport

<p>Achievements, impacts and expected results (ii) <i>Describe the impacts, products or effects expected as a result of the implementation of the intervention.</i></p>			

Notes: Data is required from: (i) Belize's NDC; (ii) Project Documents and Budget Reports

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

CLIMATE CHANGE INDICATORS¹

MITIGATION INDICATORS – BY SECTORS

1. Land Use Change and Forestry Sector

Indicator:

1.1. Consolidation and publication of strategy, including options, implementation framework and assessment of social and environmental impacts

Description: Reduce GHG emissions and increase GHG removals related to land use change totalling 2,053 KtCO ₂ e cumulative over the period from 2021 to 2030.	Unit of Measurement: Developed and published the strategy
Sources:	<input type="checkbox"/> REDD + strategy <input type="checkbox"/> National Forestry Inventory & Reports <input type="checkbox"/> Forest Resources Assessment (FAO) <input type="checkbox"/> Global Forest Watch Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> Agroforestry Systems <input type="checkbox"/> Remote Sensing Analysis <input type="checkbox"/> Aerial Photography <input type="checkbox"/> Satellite Imagery <input type="checkbox"/> Forest Management Plans <input type="checkbox"/> Reforestation Plans <input type="checkbox"/> Other (specify)

Indicator:

1.2. Consolidation and publication of forest inventory up to 2020 (2015-2020)

Description: Reduce GHG emissions and increase GHG removals related to land use change totalling 2,053 KtCO ₂ e cumulative over the period from 2021 to 2030.	Unit of Measurement: Forest inventory consolidated and published
Sources:	<input type="checkbox"/> REDD + strategy <input type="checkbox"/> National Forestry Inventory & Reports <input type="checkbox"/> Forest Resources Assessment (FAO) <input type="checkbox"/> Global Forest Watch Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> Agroforestry Systems <input type="checkbox"/> Remote Sensing Analysis <input type="checkbox"/> Aerial Photography <input type="checkbox"/> Satellite Imagery <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Forest Management Plans <input type="checkbox"/> Reforestation Plans <input type="checkbox"/> Other (specify)

¹ It is important to note that the climate change indicators included in this Registration Form are based on Belize's NDC 2.0, submitted in 2021. As Belize is currently in the process of developing and submitting its NDC 3.0 during the implementation of this project, these indicators will need to be updated once the new NDC 3.0 indicators have been finalized.

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

Indicator: 1.3. Forest/emission reference level submitted for approval to the UNFCCC	
Description: Reduce GHG emissions and increase GHG removals related to land use change totalling 2,053 KtCO ₂ e cumulative over the period from 2021 to 2030	Unit of Measurement: Tonnes of CO ₂ equivalent per year (tCO ₂ e/year)
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> National Greenhouse Gas Inventories <input type="checkbox"/> Reports from FAO <input type="checkbox"/> Reports from the Intergovernmental Panel on Climate Change (IPCC) <input type="checkbox"/> Data from National Environmental Agencies <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Ground-based Carbon Measurements <input type="checkbox"/> Remote Sensing <input type="checkbox"/> LiDAR Technology <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Other (specify)
Indicator: 1.4. Hectares of forest restored in protected areas	
Description: Implement reforestation practices for 1,400 hectares in forest areas inside protected areas, as well as the restoration of 6,000 hectares of degraded and deforested riparian forest by 2030 with 750 hectares of this being restored in key watersheds by 2025.	Unit of Measurement: Hectares (ha) restored
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Remote Sensing and Satellite Imagery: Tools like NASA's Earth Observing System (EOS) and the European Space Agency's Sentinel satellites provide data on ecosystem coverage and changes over time. <input type="checkbox"/> Scientific Studies and Environmental Reports: Published research papers and reports from organizations such as the Intergovernmental Panel on Climate Change (IPCC) and the International Union for Conservation of Nature (IUCN). <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> National and Local Environmental Agencies: Data from governmental agencies responsible for environmental management. <input type="checkbox"/> Community and Field Surveys: On-ground data collection and interviews with local populations to assess changes and community-based monitoring. <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> PACT Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Geospatial Analysis: Using GIS (Geographic Information Systems) and satellite imagery to track ecosystem changes over time. <input type="checkbox"/> Field Assessments: Conducting biological surveys and measuring carbon stocks in soil and biomass. <input type="checkbox"/> Environmental Impact Reports: Reviewing official reports and audits from environmental institutions. <input type="checkbox"/> Community Participation and Local Monitoring: Involving local stakeholders in monitoring efforts and validating data through participatory mapping and observations. <input type="checkbox"/> Independent Scientific Review: Engaging external experts to assess and validate

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<ul style="list-style-type: none"> collected data for accuracy. <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> PACT Reports <input type="checkbox"/> Other (specify)
Indicator: 1.5. Hectares of forest restored outside protected areas	
Description: Implement reforestation practices for 1,400 hectares in forest areas inside protected areas, as well as the restoration of 6,000 hectares of degraded and deforested riparian forest by 2030 with 750 hectares of this being restored in key watersheds by 2025.	Unit of Measurement: Hectares (ha) restored
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> IPCC Reports <input type="checkbox"/> FAO Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> PACT Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> IPCC Reports <input type="checkbox"/> FAO Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> PACT Reports <input type="checkbox"/> Other (specify)
Indicator: 1.6. Hectares of forest within protected areas with improve logging practices.	
Description: Reduce degradation in 42,600 hectares of forest within protected areas by reducing fire incidence, improving logging practices, and controlling other human disturbance by 2030	Unit of Measurement: Hectares (ha) with improved logging practices
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Other (specify)
Indicator: 1.7. Change overtime of fuelwood collection and usage	

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

Description: Assess potential to reduce emissions related to fuelwood collection and use including an assessment of social and cultural impacts and collection of data on current fuelwood use in local communities throughout Belize and incorporate findings into forestry sector strategies	Unit of Measurement: Assessments developed and published.
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Other (specify)
Indicator: 1.8. Number of assessments conducted to reduce emission from fuelwood collection	
Description: Assess potential to reduce emissions related to fuelwood collection and use including an assessment of social and cultural impacts and collection of data on current fuelwood use in local communities throughout Belize and incorporate findings into forestry sector strategies	Unit of Measurement: Number of assessments implemented.
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Other (specify)

Indicator: 1.9. Number of local communities dependent on forest resources	
Description: Assess potential to reduce emissions related to fuelwood collection and use including an assessment of social and cultural impacts and collection of data on current fuelwood use in local communities throughout Belize and incorporate findings into forestry sector strategies	Unit of Measurement: Assessments developed and published
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Community and Field Surveys <input type="checkbox"/> Other (specify)

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

Means of Verification:		<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Community and Field Surveys <input type="checkbox"/> Other (specify)
Indicator: 1.10. National Agroforestry Policy adopted		
Description: Incorporate and monitor agroforestry practices into at least 8,000 hectares of agricultural landscapes by 2030 by planting shade trees. In line with the draft National Agroforestry Policy, with an additional 4,500 hectares by 2025 conditional on adoption, implementation and financing of the agroforestry policy	Unit of Measurement: Agroforestry policy developed and adopted	
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Other (specify) 	
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> National Legislation Reports <input type="checkbox"/> Other (specify) 	
Indicator: 1.11. Monitor the implementation of agroforestry practices		
Description: Incorporate and monitor agroforestry practices into at least 8,000 hectares of agricultural landscapes by 2030 by planting shade trees. In line with the draft National Agroforestry Policy, with an additional 4,500 hectares by 2025 conditional on adoption, implementation and financing of the agroforestry policy	Unit of Measurement: Number of Hectares (ha)	
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Ministry of Agriculture Reports <input type="checkbox"/> Other (specify) 	
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Ministry of Agriculture Reports <input type="checkbox"/> Other (specify) 	
Indicator:		

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

1.12. Number of hectares under agroforestry practices including trees planted	
Description: Incorporate and monitor agroforestry practices into at least 8,000 hectares of agricultural landscapes by 2030 by planting shade trees. In line with the draft National Agroforestry Policy, with an additional 4,500 hectares by 2025 conditional on adoption, implementation and financing of the agroforestry policy	Unit of Measurement: Number of Hectares (ha)
Sources:	<input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Ministry of Agriculture Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Ministry of Agriculture Reports <input type="checkbox"/> Other (specify)
Indicator: 1.13. Strategy for promotion of community land stewardship practices developed	
Description: Promote and monitor the stewardship of 10,000 hectares of local community and indigenous people's lands as sustainably managed landscape to serve as net carbon sinks	Unit of Measurement: Strategy developed and published.
Sources:	<input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Other (specify)
Indicator: 1.14. Monitor implementation of sustainable forest management in local communities	
Description: Promote and monitor the stewardship of 10,000 hectares of local community and indigenous people's lands as sustainably managed landscape to serve as net carbon sinks	Unit of Measurement: Reports on implementations.
Sources:	<input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize's Forestry Department Reports

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize’s Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize’s Forestry Department Reports <input type="checkbox"/> Other (specify)
Indicator:	
1.15. Assessment of finance options for forests	
Description:	Unit of Measurement:
Explore alongside Article 6 of the Paris Agreement, new financing options to support forest protection and restoration, including REED+ performance-based payments, multilateral and bilateral funds, insurance products, debt-for-nature swaps, private investments, carbon credits and bonds, and other innovative conservation financing mechanisms	Assessment report developed and published
Sources:	<input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize’s Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize’s Forestry Department Reports <input type="checkbox"/> UNFCCC Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize’s Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize’s Forestry Department Reports <input type="checkbox"/> UNFCCC Reports <input type="checkbox"/> Other (specify)

Indicator:	
1.16. Number of additional hectares of mangroves protected	
Description:	Unit of Measurement:
Building on the 12,827 hectares of mangroves currently under protection, protect at least a further 6,000 hectares of mangroves by 2025, with an additional 6,000 hectares by 2030.	Hectares (ha) protected
Sources:	<input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize’s Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize’s Forestry Department Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize’s Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize’s Forestry Department Reports <input type="checkbox"/> Other (specify)
Indicator:	
1.17. Tons of emission reduced from the hectares of mangrove areas restored and protected	

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

Description: Building on the 12,827 hectares of mangroves currently under protection, protect at least a further 6,000 hectares of mangroves by 2025, with an additional 6,000 hectares by 2030.	Unit of Measurement: GtCO2eq reduced
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> BUR Reports <input type="checkbox"/> GHG Reports <input type="checkbox"/> Belize’s Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize’s Forestry Department Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> BUR Reports <input type="checkbox"/> GHG Reports <input type="checkbox"/> Belize’s Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize’s Forestry Department Reports <input type="checkbox"/> Other (specify)
Indicator: 1.18. Number of hectares of mangroves naturally regenerated	
Description: Building on the 12,827 hectares of mangroves currently under protection, protect at least a further 6,000 hectares of mangroves by 2025, with an additional 6,000 hectares by 2030.	Unit of Measurement: Hectares (ha) regenerated
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize’s Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize’s Forestry Department Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize’s Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize’s Forestry Department Reports <input type="checkbox"/> Other (specify)
Indicator: 1.19. Number of hectares of mangroves replanted	
Description: Building on the 12,827 hectares of mangroves currently under protection, protect at least a further 6,000 hectares of mangroves by 2025, with an additional 6,000 hectares by 2030.	Unit of Measurement: Hectares (ha) replanted
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize’s Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize’s Forestry Department Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Other (specify)
Indicator: 1.20. Number of partnerships established with landlords, local communities, bilateral and multilateral agencies	
Description: <p>Halt and reverse net mangrove loss by 2025 through public measures and partnerships with private landowners' local communities.</p> <p>Enhance the capacity of the country's mangrove and seagrass ecosystems to act as a carbon sink by 2030.</p>	Unit of Measurement: <p>Number of partnership agreements established</p>
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Other (specify)
Indicator: 1.21. Tons of emission avoided from the degree of implementation of national seagrass policy developed and enhance	
Description: <p>Assess the value of seagrass habitat contributions to climate regulation to inform development and implementation of a national seagrass management policy, updated national seagrass mapping as part of an updated marine habitat map and identification of a portfolio seagrass areas for protection to enhance conservation</p>	Unit of Measurement: <p>GtCO₂eq of emission avoided</p>
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> BUR Reports <input type="checkbox"/> GHG Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Other (specify)

Indicator:	

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

1.22. Incorporation of results from in-situ assessment of below ground carbon stock of mangroves into Greenhouse Gas Inventory	
Description: Assessment of the below ground carbon stock of mangroves by 2022, leading to the application of relevant IPCC methodologies to assess the feasibility of including seagrass in wetlands component, alongside a comprehensive assessment of mangrove-based carbon-stock	Unit of Measurement: Assessment incorporated, developed and published
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize’s Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> BUR Reports <input type="checkbox"/> GHG Reports <input type="checkbox"/> Belize’s Forestry Department Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize’s Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> BUR Reports <input type="checkbox"/> GHG Reports <input type="checkbox"/> Belize’s Forestry Department Reports <input type="checkbox"/> Other (specify)
Indicator: 1.23. Assessment of finance options for mangroves	
Description: Explore alongside Article 6 of the Paris Agreement, new financing options to support mangrove protection and restoration, including multilateral and bilateral funds, debt-for -nature swap, private investments, blue carbon credits and bonds, and other innovative conservation financing mechanisms	Unit of Measurement: Assessment developed and published
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize’s Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> BUR Reports <input type="checkbox"/> GHG Reports <input type="checkbox"/> Belize’s Forestry Department Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize’s Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> BUR Reports <input type="checkbox"/> GHG Reports <input type="checkbox"/> Belize’s Forestry Department Reports <input type="checkbox"/> Other (specify)

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

Indicator: 1.24. Biennial update assessment completed	
Description: Conduct vulnerability assessments of the national coastal area to identify threats and trends, including an initial assessment by 2022 and biennial updates to 2030	Unit of Measurement: BUR developed and published
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> BUR Reports <input type="checkbox"/> GHG Reports <input type="checkbox"/> Belize's Forestry Department Reports <input type="checkbox"/> Other (specify)

2. Agriculture Sector	
Indicator: 2.1. Number of hectares under sustainable agriculture practices with biodiversity benefits	
Description: Improve the management of 80,000 hectares of the agro-landscape through good agricultural and silvopastoral practices including by bringing 30,500 hectares under sustainable agriculture system with biodiversity benefits and 15,000 hectares in production systems under sustainable land management. Reduce methane emissions from livestock by 10% by 2030 and avoid emissions of at least 4.5 ktCO ₂ e related to agriculturally driven land use change.	Unit of Measurement: Number of hectares (ha)
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> FAO Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> Ministry of Agriculture Reports <input type="checkbox"/> BUR Reports <input type="checkbox"/> GHG Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> FAO Reports <input type="checkbox"/> CCCCC Reports

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<input type="checkbox"/> Ministry of Agriculture Reports <input type="checkbox"/> BUR Reports <input type="checkbox"/> GHG Reports <input type="checkbox"/> Other (specify)
--	--

Indicator:
2.2. Number of hectares in production systems under sustainable land management practices

Description:	Unit of Measurement:
<p>Improve the management of 80,000 hectares of the agro-landscape through good agricultural and silvopastoral practices including by bringing 30,500 hectares under sustainable agriculture system with biodiversity benefits and 15,000 hectares in production systems under sustainable land management.</p> <p>Reduce methane emissions from livestock by 10% by 2030 and avoid emissions of at least 4.5 ktCO₂e related to agriculturally driven land use change.</p>	Hectares (ha)
Sources:	<input type="checkbox"/> FAO Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> Ministry of Agriculture Reports <input type="checkbox"/> BUR Reports <input type="checkbox"/> GHG Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> FAO Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> Ministry of Agriculture Reports <input type="checkbox"/> BUR Reports <input type="checkbox"/> GHG Reports <input type="checkbox"/> Other (specify)

Indicator:
2.3. Number of hectares of sugar land restored to arability

Description:	Unit of Measurement:
<p>Restore 200 hectares of arable sugar land in Northern Belize that has been denuded over time by use</p>	Hectares (ha)
Sources:	<input type="checkbox"/> FAO Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> Ministry of Agriculture Reports <input type="checkbox"/> BUR Reports <input type="checkbox"/> GHG Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> FAO Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> Ministry of Agriculture Reports <input type="checkbox"/> BUR Reports <input type="checkbox"/> GHG Reports <input type="checkbox"/> Other (specify)

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

Indicator: 2.4. Deliver specific campaign highlighting sustainable practices in sugar cane production	
Description: Promote the reduction of agricultural GHG emissions through altering crop cultivation method, including green mechanical harvesting in sugar cane production systems	Unit of Measurement: Campaign implemented
Sources:	<input type="checkbox"/> FAO Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> Ministry of Agriculture Reports <input type="checkbox"/> BUR Reports <input type="checkbox"/> GHG Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> FAO Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> Ministry of Agriculture Reports <input type="checkbox"/> BUR Reports <input type="checkbox"/> GHG Reports <input type="checkbox"/> Other (specify)
Indicator: 2.5. Design a capacity building programme for livestock sector	
Description: Promote the reduction of agricultural GHG emissions through implementing effective livestock management that involves changing	Unit of Measurement: Programme developed and implemented
Sources:	<input type="checkbox"/> BTR Reports <input type="checkbox"/> Ministry of Agriculture Reports <input type="checkbox"/> IPCC Reports <input type="checkbox"/> FAO Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> BTR Reports <input type="checkbox"/> Ministry of Agriculture Reports <input type="checkbox"/> IPCC Reports <input type="checkbox"/> FAO Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> Other (specify)
Indicator: 2.6. Number of livestock farmers reached by capacity building programme	
Description: Promote the reduction of agricultural GHG emissions through implementing effective livestock management that involves changing	Unit of Measurement: Number Livestock Farms Capacitated

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

Sources:		<input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> FAO Reports <input type="checkbox"/> Ministry of Agriculture Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> Other (specify)
Means of Verification:		<input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> FAO Reports <input type="checkbox"/> Ministry of Agriculture Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> Other (specify)
Indicator: 2.7. Number of youths reached by capacity building programme		
Description:	Unit of Measurement:	
Promote the reduction of agricultural GHG emissions through implementing effective livestock management that involves changing	Number Youth Capacitated	
Sources:	<input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> FAO Reports <input type="checkbox"/> Ministry of Agriculture Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> Other (specify)

Indicator: 2.8. Number of women reached by capacity building programme		
Description:	Unit of Measurement:	
Promote the reduction of agricultural GHG emissions through implementing effective livestock management that involves changing	Number Women Capacitated	
Sources:	<input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> FAO Reports <input type="checkbox"/> Ministry of Agriculture <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> Other (specify)	
Means of Verification:	<input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> FAO Reports <input type="checkbox"/> Ministry of Agriculture <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> Other (specify)	

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

Indicator: 2.9. Avoided methane emissions from livestock	
Description: Promote the reduction of agricultural GHG emissions through implementing effective livestock management that involves changing	Unit of Measurement: Tonnes of CO ₂ equivalent (tCO ₂ e)
Sources:	<input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> IPCC Reports <input type="checkbox"/> FAO Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> Climate and Clean Air Coalition Reports (CCAC) <input type="checkbox"/> Global Methane Initiative Reports (GMI) <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> IPCC Reports <input type="checkbox"/> FAO Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> Climate and Clean Air Coalition Reports (CCAC) <input type="checkbox"/> Global Methane Initiative Reports (GMI) <input type="checkbox"/> Other (specify)
Indicator: 2.10. Tons of emission reduced by the number of farms adapted altering crop cultivation methods	
Description: Promote the reduction of agricultural GHG emissions through implementing effective livestock management that involves changing	Unit of Measurement: Tons of CO ₂ equivalent (tCO ₂ e)
Sources:	<input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> IPCC Reports <input type="checkbox"/> FAO Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> Climate and Clean Air Coalition Reports (CCAC) <input type="checkbox"/> Global Methane Initiative Reports (GMI) <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> IPCC Reports <input type="checkbox"/> FAO Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> Climate and Clean Air Coalition Reports (CCAC) <input type="checkbox"/> Global Methane Initiative Reports (GMI) <input type="checkbox"/> Other (specify)
Indicator: 2.11. Tons of emission reduced from the number of farmers implementing effective livestock management	
Description: Promote the reduction of agricultural GHG emissions through implementing effective livestock	Unit of Measurement: Tons of CO ₂ equivalent (tCO ₂ e)

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

management that involves changing	
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> IPCC Reports <input type="checkbox"/> FAO Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> Climate and Clean Air Coalition Reports (CCAC) <input type="checkbox"/> Global Methane Initiative Reports (GMI) <input type="checkbox"/> Other (specify)

3. Energy Sector	
Indicator: 3.1. Investments in upgrading long-distance transmission network	
Description: Reduction in transmission and distribution losses from 12% to 10% by 2030 resulting in reduced electricity demand and better quality of supply .	Unit of Measurement: Number Investments Operations
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> BTR and NCs Reports <input type="checkbox"/> Belize's Electricity Limited Reports <input type="checkbox"/> Central Bank of Belize Reports <input type="checkbox"/> Ministry of Economy Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> BUR and NCs Reports <input type="checkbox"/> Belize's Electricity Limited Reports <input type="checkbox"/> Central Bank of Belize Reports <input type="checkbox"/> Ministry of Economy Reports <input type="checkbox"/> Other (specify)
Indicator: 3.2. Transmission losses (%)	
Description: Reduction in transmission and distribution losses from 12% to 10% by 2030 resulting in reduced electricity demand and better quality of supply	Unit of Measurement: Energy savings (GWh)
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> BUR, BTR, NCs Reports <input type="checkbox"/> Belize's Electricity Limited Reports

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<ul style="list-style-type: none"> <input type="checkbox"/> National Energy Reports <input type="checkbox"/> International Energy Agency (IEA) Reports <input type="checkbox"/> Other (specify)

Indicator: 3.3. Investments in upgrading distribution networks	
Description: Reduction in transmission and distribution losses from 12% to 10% by 2030 resulting in reduced electricity demand and better quality of supply	Unit of Measurement: Number of Investments Upgrading
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> BTR and NCs Reports <input type="checkbox"/> Belize's Electricity Limited Reports <input type="checkbox"/> Belize's Electricity Limited Reports <input type="checkbox"/> Central Bank of Belize Reports <input type="checkbox"/> Ministry of Economy Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> BTR and NCs Reports <input type="checkbox"/> Belize's Electricity Limited Reports <input type="checkbox"/> Belize's Electricity Limited Reports <input type="checkbox"/> Central Bank of Belize Reports <input type="checkbox"/> Ministry of Economy Reports <input type="checkbox"/> Other (specify) <input type="checkbox"/>
Indicator: 3.4. Distribution losses (%)	
Description: Reduction in transmission and distribution losses from 12% to 10% by 2030 resulting in reduced electricity demand and better quality of supply	Unit of Measurement: Percentage of reduction losses on production and distribution of electricity
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Sustainable Energy Action Plan Reports <input type="checkbox"/> BUR, BTR & NC Reports <input type="checkbox"/> Belize's Public Utility Commission Reports <input type="checkbox"/> Belize's Electricity Limited Reports <input type="checkbox"/> World Bank and IDB Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Sustainable Energy Action Plan Reports <input type="checkbox"/> BUR, BTR & NC Reports <input type="checkbox"/> Belize's Public Utility Commission Reports <input type="checkbox"/> Belize's Electricity Limited Reports

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<input type="checkbox"/> Word Bank and IDB Reports <input type="checkbox"/> Other (specify)
Indicator:	
3.5. Tons of emission reduced from high carbon electricity sources	
Description:	Unit of Measurement:
Energy efficiency standards and labelling	Percentage (%) reduction in electricity consumption
Sources:	<input type="checkbox"/> Sustainable Energy Action Plan Reports <input type="checkbox"/> BUR, BTR & NC Reports <input type="checkbox"/> Belize's Public Utility Commission Reports <input type="checkbox"/> Belize's Electricity Limited Reports <input type="checkbox"/> Word Bank and IDB Reports <input type="checkbox"/> Other (specify)
Reduction in transmission and distribution losses from 12% to 10% by 2030 resulting in reduced electricity demand and better quality of supply	
Means of Verification:	<input type="checkbox"/> Sustainable Energy Action Plan Reports <input type="checkbox"/> BUR, BTR & NC Reports <input type="checkbox"/> Belize's Public Utility Commission Reports <input type="checkbox"/> Belize's Electricity Limited Reports <input type="checkbox"/> Word Bank and IDB Reports <input type="checkbox"/> Other (specify)
Indicator:	
3.6. National Housing Policy developed	
Description:	Unit of Measurement:
Improve energy efficiency and conservation by at least 10% by 2030 compared to a BAU baseline projection	National Policy Developed and Enacted
Sources:	<input type="checkbox"/> Sustainable Energy Action Plan Reports <input type="checkbox"/> BUR, BTR & NC Reports <input type="checkbox"/> Belize's Public Utility Commission Reports <input type="checkbox"/> Ministry of Infrastructure Development and Housing <input type="checkbox"/> Word Bank and IDB Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> Sustainable Energy Action Plan Reports <input type="checkbox"/> BUR, BTR & NC Reports <input type="checkbox"/> Belize's Public Utility Commission Reports <input type="checkbox"/> Ministry of Infrastructure Development and Housing <input type="checkbox"/> Word Bank and IDB Reports <input type="checkbox"/> Other (specify)
Indicator:	
3.7. National Urban Development Policy developed	
Description:	Unit of Measurement:
Improve energy efficiency and conservation by at least 10% by 2030 compared to a BAU baseline	National Policy Developed and Enacted

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

projection	
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Sustainable Energy Action Plan Reports <input type="checkbox"/> BUR, BTR & NC Reports <input type="checkbox"/> Ministry of Infrastructure Development and Housing <input type="checkbox"/> Belize's Public Utility Commission Reports <input type="checkbox"/> Word Bank and IDB Reports <input type="checkbox"/> Other (specify)

Indicator:	
3.12.Finance mobilized for energy efficient investments by MSMEs	
Description: Improve energy efficiency and conservation by at least 10% by 2030 compared to a BAU baseline projection	Unit of Measurement: Number of MSME Investments Executed
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Ministry of Economic Development <input type="checkbox"/> Development Finance Corporation Reports <input type="checkbox"/> Belize's Public Utility Commission Reports <input type="checkbox"/> Word Bank and IDB Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Ministry Economic Development Reports <input type="checkbox"/> Development Finance Corporation Reports <input type="checkbox"/> Belize's Public Utility Commission Reports <input type="checkbox"/> Word Bank and IDB Reports <input type="checkbox"/> Other (specify)
Indicator:	
3.13.Promote generation of electricity from renewable energy sources	
Description: Achieve 75% gross generation of electricity from renewable energy sources by 2030 through the implementation of hydropower, solar, wind and biomass, including in the tourism sector	Unit of Measurement: kVA from new renewable energy sources
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Sustainable Energy Action Plan Reports <input type="checkbox"/> BUR, BTR & NC Reports <input type="checkbox"/> Belize's Public Utility Commission Reports <input type="checkbox"/> Belize Electricity Limited Reports <input type="checkbox"/> Word Bank and IDB Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Sustainable Energy Action Plan Reports <input type="checkbox"/> BUR, BTR & NC Reports <input type="checkbox"/> Belize's Public Utility Commission Reports <input type="checkbox"/> Belize Electricity Limited Reports <input type="checkbox"/> World Bank and IDB Reports

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<input type="checkbox"/> Other (specify)
Indicator: 3.14. Number of renewable energy bankable projects prepared by the Ministry	
Description: Achieve 75% gross generation of electricity from renewable energy sources by 2030 through the implementation of hydropower, solar, wind and biomass, including in the tourism sector	Unit of Measurement: Number of Bankable Projects
Sources:	<input type="checkbox"/> Sustainable Energy Action Plan Reports <input type="checkbox"/> Belize's Public Utility Commission Reports <input type="checkbox"/> Belize Electric Limited Reports <input type="checkbox"/> Ministry of Economic Development Reports <input type="checkbox"/> Word Bank and IDB Reports <input type="checkbox"/> Other (specify)

4. Waste Management Sector	
Indicator: 4.1. Number of municipal dumps closed	
Description: Close all municipal dumps by 2025 and implement rural waste management system including rural collection and drop off services by 2030.	Unit of Measurement: Metric tonnes of waste generated per year / Tons of CO ₂ equivalent (tCO ₂ e) reduced
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Solid Waste Management Authority Reports <input type="checkbox"/> Global Methane Initiative Reports (GMI) <input type="checkbox"/> CCAC Reports <input type="checkbox"/> Belize's Solid Waste Management Strategy and Plan Reports <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> World Bank and IDB Reports <input type="checkbox"/> Other (specify)

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Solid Waste Management Authority Reports <input type="checkbox"/> Global Methane Initiative Reports (GMI) <input type="checkbox"/> CCAC Reports <input type="checkbox"/> Belize's Solid Waste Management Strategy and Plan Reports <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> World Bank and IDB Reports <input type="checkbox"/> Other (specify)
Indicator: 4.2. System in place to facilitate solid waste collection and transport in rural villages for final disposal in the mile 24 regional sanitary landfill designed	
Description: Close all municipal dumps by 2025 and implement rural waste management system including rural collection and drop off services by 2030.	Unit of Measurement: Tons of CO ₂ equivalent (tCO ₂ e) reduced annually
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> Belize's Solid Waste Management Authority Reports <input type="checkbox"/> Global Methane Initiative Reports (GMI) <input type="checkbox"/> CCAC Reports <input type="checkbox"/> Belize's Solid Waste Management Strategy and Plan Reports <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> World Bank and IDB Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> Belize's Solid Waste Management Authority Reports <input type="checkbox"/> Global Methane Initiative Reports (GMI) <input type="checkbox"/> CCAC Reports <input type="checkbox"/> Belize's Solid Waste Management Strategy and Plan Reports <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> World Bank and IDB Reports <input type="checkbox"/> Other (specify)
Indicator: 4.3. Percentage (%) of waste openly burned	
Description: End the open burning of waste by 2025 by extending regular municipal services to all households and commercial premises	Unit of Measurement: Number of waste facilities built and/or upgraded.
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> Belize's Solid Waste Management Authority Reports <input type="checkbox"/> Global Methane Initiative Reports (GMI) <input type="checkbox"/> CCAC Reports <input type="checkbox"/> Belize's Solid Waste Management Strategy and Plan Reports <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> World Bank and IDB Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> Belize's Solid Waste Management Authority Reports <input type="checkbox"/> Global Methane Initiative Reports (GMI)

	<ul style="list-style-type: none"> <input type="checkbox"/> CCAC Reports <input type="checkbox"/> Belize's Solid Waste Management Strategy and Plan Reports <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> World Bank and IDB Reports <input type="checkbox"/> Other (specify)
Indicator: 4.4. Number of households and commercial premises with municipal services to end open burning of waste	
Description: End the open burning of waste by 2025 by extending regular municipal services to all households and commercial premises.	Unit of Measurement: Number of improved/installed wastewater systems
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> Belize's Solid Waste Management Authority Reports <input type="checkbox"/> Global Methane Initiative Reports (GMI) <input type="checkbox"/> CCAC Reports <input type="checkbox"/> Belize's Solid Waste Management Strategy and Plan Reports <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> World Bank and IDB Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> Belize's Solid Waste Management Authority Reports <input type="checkbox"/> Global Methane Initiative Reports (GMI) <input type="checkbox"/> CCAC Reports <input type="checkbox"/> Belize's Solid Waste Management Strategy and Plan Reports <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> World Bank and IDB Reports <input type="checkbox"/> Other (specify)
Indicator: 4.5. Gap analysis conducted to identify municipal service coverage gaps	
Description: End the open burning of waste by 2025 by extending regular municipal services to all households and commercial premises.	Unit of Measurement: Gap Analysis Developed
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> Belize's Solid Waste Management Authority Reports <input type="checkbox"/> Global Methane Initiative Reports (GMI) <input type="checkbox"/> CCAC Reports <input type="checkbox"/> Belize's Solid Waste Management Strategy and Plan Reports <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> World Bank and IDB Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> Belize's Solid Waste Management Authority Reports <input type="checkbox"/> Global Methane Initiative Reports (GMI) <input type="checkbox"/> CCAC Reports <input type="checkbox"/> Belize's Solid Waste Management Strategy and Plan Reports

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<ul style="list-style-type: none"> <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> World Bank and IDB Reports <input type="checkbox"/> Other (specify)
Indicator: 4.6. Gap analysis conducted to identify regulatory and legal reforms needed to enable development of sustainable solid waste management sector	
Description: Develop a legal and policy framework for the sustainable management of solid waste in Belize.	Unit of Measurement: Gap Analysis Developed
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> Belize's Solid Waste Management Authority Reports <input type="checkbox"/> Global Methane Initiative Reports (GMI) <input type="checkbox"/> CCAC Reports <input type="checkbox"/> Belize's Solid Waste Management Strategy and Plan Reports <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> World Bank and IDB Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> Belize's Solid Waste Management Authority Reports <input type="checkbox"/> Global Methane Initiative Reports (GMI) <input type="checkbox"/> CCAC Reports <input type="checkbox"/> Belize's Solid Waste Management Strategy and Plan Reports <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> World Bank and IDB Reports <input type="checkbox"/> Other (specify)
Indicator: 4.7. Review of the existing legal/regulatory and institutional framework for solid Waste Management	
Description: Legislative amendments required to improve sustainability of waste sector developed.	Unit of Measurement: Legal and institutional framework completed
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> Belize's Solid Waste Management Authority Reports <input type="checkbox"/> Global Methane Initiative Reports (GMI) <input type="checkbox"/> CCAC Reports <input type="checkbox"/> Belize's Solid Waste Management Strategy and Plan Reports <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> World Bank and IDB Reports <input type="checkbox"/> Other (specify)

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

5. Transportation Sector	
Indicator: 5.1. Number of hybrid buses deployed	
Description: Improve efficiency in the public transit system through the deployment of 77 hybrid and electric buses by 2030 (17 by 2025)	Unit of Measurement: Number of Hybrid Buses Imported
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> Belize’s customs Authority reports <input type="checkbox"/> Ministry of Finance reports <input type="checkbox"/> Ministry of Transport reports <input type="checkbox"/> Belize’s motor vehicle registration office reports <input type="checkbox"/> Belize’s automobile dealers’ association reports <input type="checkbox"/> Belize Customs & Excise Department Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> Belize’s customs Authority reports <input type="checkbox"/> Ministry of Finance reports <input type="checkbox"/> Ministry of Transport reports <input type="checkbox"/> Belize’s motor vehicle registration office reports <input type="checkbox"/> Belize’s automobile dealers’ association reports <input type="checkbox"/> Belize Customs & Excise Department Reports <input type="checkbox"/> Other (specify)
Indicator: 5.2. Number of electric buses deployed	
Description: Improve efficiency in the public transit system through the deployment of 77 hybrid and electric buses by 2030 (17 by 2025)	Unit of Measurement: Number of Electric Buses Imported
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> Ministry of Transport reports <input type="checkbox"/> Belize’s customs Authority reports <input type="checkbox"/> Belize’s motor vehicle registration office reports <input type="checkbox"/> Belize’s automobile dealers’ association reports <input type="checkbox"/> Belize Customs & Excise Department reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> National GHG Inventories Reports (BUR, BTR, NCs) <input type="checkbox"/> Belize’s customs Authority reports <input type="checkbox"/> Ministry of Transport reports

CLIMATE CHANGE INDICATORS	
ADAPTATION INDICATORS – BY SECTORS	
1. Coastal and Marine Resources Sector	
Indicator: 1.1. Updated vulnerability assessment of national coastal area	
Description: Increase resilience to climate impacts for coastal communities and habitats by managing further development of the coastline to reverse net coastal habitat and land loss by 2025.	Unit of Measurement: Report on assessment on National coastal area completed
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> National Infrastructure Reports <input type="checkbox"/> UNEP Reports <input type="checkbox"/> Coastal Zone Management Authority and Institute (CZMAI) Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> National Infrastructure Reports <input type="checkbox"/> UNEP Reports <input type="checkbox"/> Coastal Zone Management Authority and Institute (CZMAI) Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)
Indicator: 1.2. Biennial update assessment completed	
Description: Increase resilience to climate impacts for coastal communities and habitats by managing further development of the coastline to reverse net coastal habitat and land loss.	Unit of Measurement: Report of the biennial update assessment on National coastal area completed
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> National Infrastructure Reports <input type="checkbox"/> UNEP Reports <input type="checkbox"/> Coastal Zone Management Authority and Institute (CZMAI) Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> National Infrastructure Reports <input type="checkbox"/> UNEP Reports <input type="checkbox"/> Coastal Zone Management Authority and Institute (CZMAI) Reports <input type="checkbox"/> BTRs Reports

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<input type="checkbox"/> Other (specify)
Indicator: 1.3. Public informational clearinghouse on ecosystem health and human use activities in the coastal zone established	
Description: Establish a public informational clearing house on ecosystem health and human use activities within the coastal zone to share information to support responsible planning in coastal areas.	Unit of Measurement: Public information clearing house on ecosystem health and human use activities in the coastal zone established
Sources:	<input type="checkbox"/> IUCN Reports <input type="checkbox"/> Ministry of Finance Reports <input type="checkbox"/> GEF Reports <input type="checkbox"/> GCF Reports <input type="checkbox"/> PACT Reports <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> IUCN Reports <input type="checkbox"/> Ministry of Finance Reports <input type="checkbox"/> GEF Reports <input type="checkbox"/> GCF Reports <input type="checkbox"/> PACT Reports <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)
Indicator: 1.4. Impact study of ocean acidification on coastal areas and marine resources completed	
Description: Conduct a study of the impacts of ocean acidification on Belize's coastal habitats and marine resources.	Unit of Measurement: Study report on Impact of ocean acidification on Belize's coastal areas and marine resources completed.
Sources:	<input type="checkbox"/> IUCN Reports <input type="checkbox"/> GEF Reports <input type="checkbox"/> WWF Reports <input type="checkbox"/> GCF Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> PACT Reports <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> IUCN Reports <input type="checkbox"/> GEF Reports <input type="checkbox"/> WWF Reports <input type="checkbox"/> GCF Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> PACT Reports <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> BTRs Reports

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<input type="checkbox"/> Other (specify)
Indicator: 1.5. Ocean acidification monitoring programme established	
Description: Conduct a study of the impacts of ocean acidification on Belize's coastal habitats and marine resources	Unit of Measurement: Ocean acidification monitoring programme report completed
Sources:	<input type="checkbox"/> IUCN Reports <input type="checkbox"/> Ministry of Finance Reports <input type="checkbox"/> GEF Reports <input type="checkbox"/> WWF Reports <input type="checkbox"/> GCF Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> PACT Reports <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> IUCN Reports <input type="checkbox"/> Ministry of Finance Reports <input type="checkbox"/> GEF Reports <input type="checkbox"/> WWF Reports <input type="checkbox"/> GCF Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> PACT Reports <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)
Indicator: 1.6. Coral reef restoration potential, including opportunities for enhancing habitat functionality assessed	
Description: Assess coral reef restoration potential, including opportunities for enhancing habitat functionality to improve the resilience of coastal and marine habitats.	Unit of Measurement: Report on Coral reef restoration potential, including opportunities for enhancing habitat functionality
Sources:	<input type="checkbox"/> IUCN Reports <input type="checkbox"/> GEF Reports <input type="checkbox"/> WWF Reports <input type="checkbox"/> GCF Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> PACT Reports <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> IUCN Reports <input type="checkbox"/> GEF Reports <input type="checkbox"/> WWF Reports <input type="checkbox"/> GCF Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> PACT Reports

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<ul style="list-style-type: none"> <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)
Indicator: 1.7. EWS monitored and detect unhealthy areas of the coral reef developed	
Description: Assess coral reef restoration potential, including opportunities for enhancing habitat functionality to improve the resilience of coastal and marine habitats.	Unit of Measurement: Report on EWS monitored and detect unhealthy areas of the coral reef
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> IUCN Reports <input type="checkbox"/> GEF Reports <input type="checkbox"/> WWF Reports <input type="checkbox"/> GCF Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> PACT Reports <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> IUCN Reports <input type="checkbox"/> GEF Reports <input type="checkbox"/> WWF Reports <input type="checkbox"/> GCF Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> PACT Reports <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)
Indicator: 1.8. Assessment of current legislation and coastal development policies to identify areas for improvement completed	
Description: Revise and streamline current legislation and policies that relate to the management of the coastal zone to eliminate overlaps and close existing gaps and develop a national policy.	Unit of Measurement: Report on Assessment of current legislation and coastal development policies to identify areas for improvement.
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> IUCN Reports <input type="checkbox"/> Belize's National Assembly Reports <input type="checkbox"/> GEF Reports <input type="checkbox"/> WWF Reports <input type="checkbox"/> GCF Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> PACT Reports <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> IUCN Reports <input type="checkbox"/> Belize's National Assembly Reports <input type="checkbox"/> GEF Reports <input type="checkbox"/> WWF Reports

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<ul style="list-style-type: none"> <input type="checkbox"/> GCF Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> PACT Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Other (specify)
Indicator: 1.9. Revised legislation and draft amendments completed	
Description: Revise and streamline current legislation and policies that relate to the management of the coastal zone to eliminate overlaps and close existing gaps and develop a national policy.	Unit of Measurement: Report on legislation and draft amendments completed.
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> IUCN Reports <input type="checkbox"/> Belize's National Assembly Reports <input type="checkbox"/> GEF Reports <input type="checkbox"/> WWF Reports <input type="checkbox"/> GCF Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> PACT Reports <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<input type="checkbox"/> BTRs Reports <input type="checkbox"/> Field survey <input type="checkbox"/> Other (specify)
Indicator: 1.19. National monitoring system and coastal response plan for storm surges and flooding developed	
Description: Monitor coastal erosion and update coastal adaptation strategy every 5 years through the development of a National Beach Erosion Monitoring programme. Pilot early warning system for storm surges in 1 coastal district, develop a national monitoring system and coastal response plan for storm surges and flooding.	Unit of Measurement: Report on national monitoring system and coastal response plan for storm surges and flooding developed
Sources:	<input type="checkbox"/> GEF Reports <input type="checkbox"/> GCF Reports <input type="checkbox"/> Adaptation Fund Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> PACT Reports <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> GEF Reports <input type="checkbox"/> GCF Reports <input type="checkbox"/> Adaptation Fund Reports <input type="checkbox"/> CCCCC Reports <input type="checkbox"/> PACT Reports <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Satellite imagery <input type="checkbox"/> Field survey <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)

2. Agriculture Sector	
Indicator: 2.1. Short-term actions and investments	
Description: Mobilize infrastructure investments for Climate Smart Agriculture (CSA) as set out in the National Adaptation Strategy to Address Climate Change.	Unit of Measurement: Yearly amount in USD invested in Climate Smart Agriculture (CSA) infrastructure.
Sources:	<input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change Reports <input type="checkbox"/> Belize's Ministry of Agriculture Reports

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)
Indicator:	
2.2. Concept note for financing facility developed	
Description: Establish a financing facility for CSA investments through local financial institutions.	Unit of Measurement: Concept Note Developed
Sources:	<input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Belize's Finance Ministry Reports (PSIP) <input type="checkbox"/> Belize's Central Bank Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> Belize's Central Bank Reports <input type="checkbox"/> National Regulatory Bodies Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)
Indicator:	
2.3. Financing facility formally established	
Description: Establish a financing facility for CSA investments through local financial institutions.	Unit of Measurement: Financing Facility Established
Sources:	<input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> Belize's Central Bank Reports <input type="checkbox"/> National Regulatory Bodies Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> Belize's Central Bank Reports <input type="checkbox"/> National Regulatory Bodies Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)
Indicator:	
2.4. Research partnerships established with institutions	
Description: Improve both crop and livestock husbandry practices, increase access to drought tolerant crops and livestock breeds through partnerships with research institutions.	Unit of Measurement: Partnership Established (MoU)
Sources:	<input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> FAO Reports <input type="checkbox"/> University of Belize Reports <input type="checkbox"/> PACT Reports

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> FAO Reports <input type="checkbox"/> University of Belize Reports <input type="checkbox"/> PACT Reports <input type="checkbox"/> Signed MoU <input type="checkbox"/> Other (specify)
Indicator:	
2.5. Number of drought tolerant seeds distributed to farmers	
Description: Improve both crop and livestock husbandry practices, increase access to drought tolerant crops and livestock breeds through partnerships with research institutions.	Unit of Measurement: Yearly genetic material distributed to farmers (Kg)
Sources:	<input type="checkbox"/> FAO Reports <input type="checkbox"/> Belize's Ministry of Agriculture <input type="checkbox"/> IFAD Reports <input type="checkbox"/> Belize's Sugar Cane Farmers Association Reports <input type="checkbox"/> Toledo Cacao Farmers Association Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> FAO Reports <input type="checkbox"/> Belize's Ministry of Agriculture <input type="checkbox"/> IFAD Reports <input type="checkbox"/> Belize's Sugar Cane Farmers Association Reports <input type="checkbox"/> Toledo Cacao Farmers Association Reports <input type="checkbox"/> Other (specify)
Indicator:	
2.6. Ha of agricultural lands using biochar	
Description: Adopt better soil and water management practices, including the use of biochar and improved (solar-powered) irrigation systems.	Unit of Measurement: Yearly Ha of land using biochar.
Sources:	<input type="checkbox"/> USDA Reports <input type="checkbox"/> FAO Reports <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> UNDP Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> USDA Reports <input type="checkbox"/> FAO Reports <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> UNDP Reports <input type="checkbox"/> Other (specify)
Indicator:	
2.7. Ha of agricultural lands using solar-powered irrigation systems	
Description:	Unit of Measurement:

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

<p>Adopt better soil and water management practices, including the use of biochar and improved (solar-powered) irrigation systems.</p>	<p>Yearly Ha of land using solar-powered irrigation systems.</p>
<p>Sources:</p>	<ul style="list-style-type: none"> <input type="checkbox"/> USDA Reports <input type="checkbox"/> FAO Reports <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> UNDP Reports <input type="checkbox"/> Other (specify)

Indicator:	
2.17. Number of farmers reached by awareness campaign (Pilot Insurance)	
Description:	Unit of Measurement:
Explore crop and commodity insurance schemes and pilot insurance product including education and awareness raising campaign.	Yearly number of farmers reached by campaign
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Surveys <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Surveys

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<input type="checkbox"/> Other (specify)
Indicator: 2.18. Number of women reached by awareness campaign (Pilot Insurance)	
Description: Explore crop and commodity insurance schemes and pilot insurance product including education and awareness raising campaign.	Unit of Measurement: Yearly number of women reached by campaign
Sources:	<input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Surveys <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Surveys <input type="checkbox"/> Other (specify)
Indicator: 2.19. Number of youths reached by awareness campaign	
Description: Explore crop and commodity insurance schemes and pilot insurance product including education and awareness raising campaign.	Unit of Measurement: Yearly number of youths reached by campaign (disaggregated by gender)
Sources:	<input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Surveys <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Surveys <input type="checkbox"/> Other (specify)

3. Fishery and Aquaculture Sector	
Indicator: 3.1. Share of conservation and management plans for marine protected areas updated to include impacts on mangroves and fisheries	
Description: Build national capacity to gather climate data to inform management. Develop and implement mangrove and fisheries conservation and management plans	Unit of Measurement: Partnerships Established
Sources:	<input type="checkbox"/> USDA Reports <input type="checkbox"/> FAO Reports <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> The Fisheries Department Reports <input type="checkbox"/> OSPESCA/ SICA Reports <input type="checkbox"/> Belize's Ministry of the Blue Economy and Civil Aviation <input type="checkbox"/> Other (specify)

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> The Fisheries Department Reports <input type="checkbox"/> MoU Signed <input type="checkbox"/> Belize's Ministry of the Blue Economy and Civil Aviation <input type="checkbox"/> Other (specify)
Indicator: 3.2. Share of conservation and management plans for marine replenishment zones updated to include impacts on mangroves and fisheries	
Description: Build national capacity to gather climate data to inform management. Develop and implement mangrove and fisheries conservation and management plans.	Unit of Measurement: Data System Established
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> USDA Reports <input type="checkbox"/> FAO Reports <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> The Fisheries Department Reports <input type="checkbox"/> OSPESCA/ SICA Reports <input type="checkbox"/> Belize's Ministry of the Blue Economy and Civil Aviation <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> The Fisheries Department Reports <input type="checkbox"/> Belize's Ministry of the Blue Economy and Civil Aviation <input type="checkbox"/> Other (specify)
Indicator: 3.3. Number of research partnerships established to support diversification in fishing sector	
Description: Encourage the development of the sector through value adding and diversification in fish species through research partnerships, private sector engagement	Unit of Measurement: Fishing research partnerships established
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> USDA Reports <input type="checkbox"/> FAO Reports <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> The Fisheries Department Reports <input type="checkbox"/> OSPESCA/ SICA Reports <input type="checkbox"/> Belize's Ministry of the Blue Economy and Civil Aviation <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> The Fisheries Department Reports <input type="checkbox"/> Belize's Ministry of the Blue Economy and Civil Aviation <input type="checkbox"/> MoU developed and signed <input type="checkbox"/> Other (specify)
Indicator: 3.4. Regulations to compliment the Fisheries act developed and adapted	

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

Description: Implement and enforce 2020 Fisheries Act and 2018 Forests (Protection of Mangroves) Regulations. Develop and adopt fisheries regulations to complement the 2020 Fisheries Act.	Unit of Measurement: Fisheries Act Enacted
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Belize's National Assembly Reports <input type="checkbox"/> The Fisheries Department Reports <input type="checkbox"/> OSPESCA/ SICA Reports <input type="checkbox"/> Belize's Ministry of the Blue Economy and Civil Aviation <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Belize's National Assembly Reports <input type="checkbox"/> The Fisheries Department Reports <input type="checkbox"/> OSPESCA/ SICA Reports <input type="checkbox"/> Belize's Ministry of the Blue Economy and Civil Aviation <input type="checkbox"/> Other (specify)
Indicator: 3.5. Number of alternative livelihood plans developed for fishers and households	
Description: Explore the development of alternative livelihood plans for fishers and their households and include alongside further regulation in the sector, capacity building and strengthening of fisher organizations.	Unit of Measurement: Yearly fishers supported by alternative livelihood plans
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Ministry of Finance reports <input type="checkbox"/> The Fisheries Department Reports <input type="checkbox"/> Belize's Ministry of the Blue Economy and Civil Aviation <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Ministry of Finance reports <input type="checkbox"/> The Fisheries Department Reports <input type="checkbox"/> Belize's Ministry of the Blue Economy and Civil Aviation <input type="checkbox"/> Other (specify)
Indicator: 3.6. Number of fisher organizations strengthened by training and other capacity building efforts	
Description: Explore the development of alternative livelihood plans for fishers and their households and include alongside further regulation in the sector, capacity building and strengthening of fisher organizations.	Unit of Measurement: Yearly number Fisheries Organizations strengthened

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Ministry of Finance reports <input type="checkbox"/> The Fisheries Department Reports <input type="checkbox"/> Belize's Ministry of the Blue Economy and Civil Aviation <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Ministry of Finance reports <input type="checkbox"/> The Fisheries Department Reports <input type="checkbox"/> Belize's Ministry of the Blue Economy and Civil Aviation <input type="checkbox"/> Other (specify)

4. Human Health Sector	
Indicator:	
4.1. Assessment of Belize's health sector climate change vulnerability and response capacities completed for arboviruses (expand on initial assessment)	
Description:	Unit of Measurement:
Undertake a Climate Change Vulnerability and Capacity Assessment for the health sector.	Climate Change Vulnerability Assessment Developed
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Health and Wellness Reports <input type="checkbox"/> WHO Reports <input type="checkbox"/> OPS Reports <input type="checkbox"/> NCCO Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Public Health Records and Hospital Data <input type="checkbox"/> Epidemiological Studies (Research on disease outbreaks and climate-sensitive health conditions) <input type="checkbox"/> Air Quality Monitoring Data on Pollutant Levels (e.g., PM2.5, ozone, carbon monoxide) <input type="checkbox"/> Climate Change Vulnerability Assessment Developed <input type="checkbox"/> Climate and Weather Reports (Temperature records and frequency of extreme heat events) <input type="checkbox"/> Disease Surveillance Systems (Monitoring programs for infectious diseases spread by climate change) <input type="checkbox"/> Community health surveys: Data on vulnerable populations and access to healthcare during climate crises <input type="checkbox"/> Other (specify)
Indicator:	
4.2. Number of research partnerships established for the control and management of climate-related disease - Assessment for the Establishment of Rapid Multi-disciplinary Response Team for Arboviruses	
Description:	Unit of Measurement:
Improve disease control and prevention including through the management of disease vectors, through partnerships with research institutions.	Research Partnerships Developed
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Health and Wellness Reports <input type="checkbox"/> WHO Reports

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<ul style="list-style-type: none"> <input type="checkbox"/> OPS Reports <input type="checkbox"/> CDC Reports <input type="checkbox"/> Uniform Services Reports <input type="checkbox"/> Other (specify)
<p>Means of Verification:</p>	<ul style="list-style-type: none"> <input type="checkbox"/> Public Health Records and Hospital Data <input type="checkbox"/> Epidemiological Studies (Research on disease outbreaks and climate-sensitive health conditions) <input type="checkbox"/> Air Quality Monitoring Data on Pollutant Levels (e.g., PM2.5, ozone, carbon monoxide) <input type="checkbox"/> Research Partnerships MoU developed and signed <input type="checkbox"/> Climate and Weather Reports (Temperature records and frequency of extreme heat events) <input type="checkbox"/> Disease Surveillance Systems (Monitoring programs for infectious diseases spread by climate change) <input type="checkbox"/> Community health surveys: Data on vulnerable populations and access to healthcare during climate crises <input type="checkbox"/> Other (specify)
<p>Indicator: 4.3. Rapid Multi-disciplinary Response Team for Arboviruses established</p>	
<p>Description: Improve disease control and prevention including through the management of disease vectors, through partnerships with research institutions.</p>	<p>Unit of Measurement: Strategic Plan Developed</p>
<p>Sources:</p>	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Health and Wellness Reports <input type="checkbox"/> WHO Reports <input type="checkbox"/> OPS Reports <input type="checkbox"/> CDC Reports <input type="checkbox"/> Uniform Services Reports <input type="checkbox"/> Other (specify)
<p>Means of Verification:</p>	<ul style="list-style-type: none"> <input type="checkbox"/> Public Health Records and Hospital Data <input type="checkbox"/> Epidemiological Studies (Research on disease outbreaks and climate-sensitive health conditions) <input type="checkbox"/> Air Quality Monitoring Data on Pollutant Levels (e.g., PM2.5, ozone, carbon monoxide) <input type="checkbox"/> Climate and Weather Reports (Temperature records and frequency of extreme heat events) <input type="checkbox"/> Disease Surveillance Systems (Monitoring programs for infectious diseases spread by climate change) <input type="checkbox"/> Community health surveys: Data on vulnerable populations and access to healthcare during climate crises <input type="checkbox"/> Other (specify)
<p>Indicator: 4.4. Assessment of capacity of health staff in Integrated Vector Management (Environmental Health and Vector Control)</p>	
<p>Description: Improve disease control and prevention including through the management of disease vectors, through partnerships with research institutions.</p>	<p>Unit of Measurement: Partnerships with Research Institutions Developed</p>

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Health and Wellness Reports <input type="checkbox"/> WHO Reports <input type="checkbox"/> OPS Reports <input type="checkbox"/> CDC Reports <input type="checkbox"/> Uniform Services Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Public Health Records and Hospital Data <input type="checkbox"/> Epidemiological Studies (Research on disease outbreaks and climate-sensitive health conditions) <input type="checkbox"/> Air Quality Monitoring Data on Pollutant Levels (e.g., PM2.5, ozone, carbon monoxide) <input type="checkbox"/> Climate and Weather Reports (Temperature records and frequency of extreme heat events) <input type="checkbox"/> Partnerships with Research Institutions MoU developed and signed <input type="checkbox"/> Disease Surveillance Systems (Monitoring programs for infectious diseases spread by climate change) <input type="checkbox"/> Community health surveys: Data on vulnerable populations and access to healthcare during climate crises <input type="checkbox"/> Other (specify)
Indicator: 4.5. Number of individuals trained in disease control and vector management and demonstrating improved capacity based on assessments before and after training	
Description: Improve disease control and prevention including through the management of disease vectors, through partnerships with research institutions.	Unit of Measurement: Partnerships with Research Institutions Developed
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Health and Wellness Reports <input type="checkbox"/> University of Belize Reports <input type="checkbox"/> WHO Reports <input type="checkbox"/> OPS Reports <input type="checkbox"/> CDC Reports <input type="checkbox"/> Uniform Services Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Partnerships with Research Institutions MoU developed and signed <input type="checkbox"/> Other (specify)
Indicator: 4.6. Number of national disease/vector monitoring plans developed/updated for health sector	
Description: Implement early warning system for health sector for specific diseases, vectors, and high temperatures.	Unit of Measurement: Health Sector Strategic Plan Developed
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Health and Wellness Reports <input type="checkbox"/> WHO Reports <input type="checkbox"/> OPS Reports <input type="checkbox"/> CDC Reports <input type="checkbox"/> Uniform Services Reports <input type="checkbox"/> Other (specify)

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Health Sector Strategic Plan Developed and available <input type="checkbox"/> Other (specify)
Indicator: 4.7. Review of Early Warning System (endemic channels) for arboviruses completed	
Description: Implement early warning system for health sector for specific diseases, vectors, and high temperatures.	Unit of Measurement: Early Warning System Strategic Plan Developed
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Health and Wellness Reports <input type="checkbox"/> WHO Reports <input type="checkbox"/> OPS Reports <input type="checkbox"/> CDC Reports <input type="checkbox"/> Uniform Services Reports <input type="checkbox"/> Belize's Meteorological Services Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Early Warning System Strategic Plan Developed and available <input type="checkbox"/> Other (specify)
Indicator: 4.8. Funds invested in climate-proofed health infrastructure	
Description: Facilitate investment in health infrastructure based on findings of sector vulnerability assessment.	Unit of Measurement: Strategic Plan Developed
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Health and Wellness Reports <input type="checkbox"/> WHO Reports <input type="checkbox"/> OPS Reports <input type="checkbox"/> Smart Health Programme Reports <input type="checkbox"/> CDC Reports <input type="checkbox"/> Uniform Services Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Strategic Plan developed and available <input type="checkbox"/> Other (specify)
Indicator: 4.9. Establish priority areas for campaign to mitigate climate change impact on health identified	
Description: Facilitate investment in health infrastructure based on findings of sector vulnerability assessment.	Unit of Measurement: Strategic Plan Developed
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Health and Wellness Reports <input type="checkbox"/> WHO Reports <input type="checkbox"/> OPS Reports <input type="checkbox"/> CDC Reports <input type="checkbox"/> Uniform Services Reports <input type="checkbox"/> Other (specify)
Means of Verification:	

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<input type="checkbox"/> Strategic Plan developed and available <input type="checkbox"/> Other (specify)
Indicator:	
4.10. Number of awareness campaign for adaptation measures related to health developed	
Description:	Unit of Measurement:
Develop education awareness programme to educate population on adaptation measures as it relates to family.	Strategic Plan Developed
Sources:	<input type="checkbox"/> Belize's Ministry of Health and Wellness Reports <input type="checkbox"/> WHO Reports <input type="checkbox"/> OPS Reports <input type="checkbox"/> CDC Reports <input type="checkbox"/> Uniform Services Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> Strategic Plan developed and available <input type="checkbox"/> Other (specify)
Indicator:	
4.11. Number of individuals reached by climate-smart health awareness campaign	
Description:	Unit of Measurement:
Develop education awareness programme to educate population on adaptation measures as it relates to family.	Yearly number individuals reached by climate-smart health awareness campaign
Sources:	<input type="checkbox"/> Belize's Ministry of Health and Wellness Reports <input type="checkbox"/> WHO Reports <input type="checkbox"/> OPS Reports <input type="checkbox"/> CDC Reports <input type="checkbox"/> Uniform Services Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> Belize's Ministry of Health and Wellness Reports <input type="checkbox"/> Surveys and polls report <input type="checkbox"/> Other (specify)
Indicator:	
4.12. Number of women reached by climate-smart health awareness campaign	
Description:	Unit of Measurement:
Develop education awareness programme to educate population on adaptation measures as it relates to family.	Yearly number of women reached by climate-smart health awareness campaign
Sources:	<input type="checkbox"/> Belize's Ministry of Health and Wellness Reports <input type="checkbox"/> WHO Reports <input type="checkbox"/> OPS Reports <input type="checkbox"/> CDC Reports <input type="checkbox"/> Uniform Services Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> Belize's Ministry of Health and Wellness Reports <input type="checkbox"/> Surveys and polls report

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<input type="checkbox"/> Other (specify)
Indicator: 4.13. Major communication medium to reach youth for dissemination of climate change health information determined	
Description: Develop education awareness programme to educate population on adaptation measures as it relates to family.	Unit of Measurement: Yearly number of youths reached (disaggregated by gender)
Sources:	<input type="checkbox"/> Belize's Ministry of Health and Wellness Reports <input type="checkbox"/> WHO Reports <input type="checkbox"/> OPS Reports <input type="checkbox"/> CDC Reports <input type="checkbox"/> Uniform Services Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> Belize's Ministry of Health and Wellness Reports <input type="checkbox"/> Belize's Ministry of Education Reports <input type="checkbox"/> Surveys and polls report <input type="checkbox"/> Other (specify)
Indicator: 4.14. KAP survey on youth's reception of health climate change information conducted	
Description: Develop education awareness programme to educate population on adaptation measures as it relates to family.	Unit of Measurement: Yearly number of youths participating in survey (disaggregated by gender)
Sources:	<input type="checkbox"/> Belize's Ministry of Health and Wellness Reports <input type="checkbox"/> WHO Reports <input type="checkbox"/> OPS Reports <input type="checkbox"/> CDC Reports <input type="checkbox"/> Uniform Services Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> Belize's Ministry of Health and Wellness Reports <input type="checkbox"/> Belize's Ministry of Education Reports <input type="checkbox"/> Surveys and polls report <input type="checkbox"/> Other (specify)
Indicator: 4.15. Number of youths reached by climate-smart health awareness campaign	
Description: Develop education awareness programme to educate population on adaptation measures as it relates to family.	Unit of Measurement: Yearly number of youths reached (disaggregated by gender)
Sources:	<input type="checkbox"/> Belize's Ministry of Health and Wellness Reports <input type="checkbox"/> WHO Reports <input type="checkbox"/> OPS Reports <input type="checkbox"/> CDC Reports <input type="checkbox"/> Uniform Services Reports <input type="checkbox"/> Other (specify)

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize’s Ministry of Health and Wellness Reports <input type="checkbox"/> Belize’s Ministry of Education Reports <input type="checkbox"/> Surveys and polls report <input type="checkbox"/> Other (specify)
-------------------------------	---

5. Tourism sector

Indicator:

5.1. Vulnerability assessment of coastal tourism areas completed

Description:	Unit of Measurement:
Identify and assess coastal tourism areas that are vulnerable to climate change. Assess carrying capacity of sites that are identified as vulnerable.	Assessment report on coastal tourism areas

Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize’s Tourism Board Reports <input type="checkbox"/> UNWTO Reports <input type="checkbox"/> Ministry of Finance Reports <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Other (specify)
-----------------	---

Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Government Infrastructure Assessments <input type="checkbox"/> Insurances Policies Data <input type="checkbox"/> Ministry of Finance Reports <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Assessment report on coastal tourism areas completed and available <input type="checkbox"/> Other (specify)
-------------------------------	--

Indicator:

5.2. Assessment of carrying capacity of vulnerable sites completed

Description:	Unit of Measurement:
Identify and assess coastal tourism areas that are vulnerable to climate change. Assess carrying capacity of sites that are identified as vulnerable.	Assessment report on vulnerable coastal touristic areas

Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize’s Tourism Board Reports <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> UNWTO Reports <input type="checkbox"/> Other (specify)
-----------------	---

Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Government Infrastructure Assessments <input type="checkbox"/> Assessment report on vulnerable coastal touristic areas completed and available <input type="checkbox"/> Other (specify)
-------------------------------	--

Indicator:

5.3. National Tourism Master Plan updated to reflect adaptation needs for the sector

Description:	Unit of Measurement:
Update the National Tourism Master Plan to reflect adaptation strategies in the sector.	Updated National Tourism Master Plan

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

Sources:		<input type="checkbox"/> Belize's Tourism Board Reports <input type="checkbox"/> UNWTO Reports <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Other (specify)
Means of Verification:		<input type="checkbox"/> Government Infrastructure Assessments <input type="checkbox"/> Updated National Tourism Master Plan completed and available <input type="checkbox"/> Other (specify)
Indicator: 5.4. Guidance prepared for development of coastal tourism areas that reflects adaptation strategies		
Description: Develop area-specific adaptation strategies that provide guidance on adapting to impacts of climate change, paying keen attention to local and indigenous communities.	Unit of Measurement: Developed Adaptation Strategy Guidelines	
Sources:		<input type="checkbox"/> Belize's Tourism Board Reports <input type="checkbox"/> UNWTO Reports <input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> CZMAI Reports <input type="checkbox"/> Other (specify)
Means of Verification:		<input type="checkbox"/> Government Infrastructure Assessments <input type="checkbox"/> Adaptation Strategy Guidelines Completed and Available <input type="checkbox"/> Other (specify)
Indicator: 5.5. Number of site-specific adaptation strategies developed for tourism sector		
Description: Provide support to coastal planners and policy makers in selecting appropriate policies and adaptation strategies that meet climate adaptation, developmental and environmental goals.	Unit of Measurement: Developed adaptation strategy on site-specific for tourism sector	
Sources:		<input type="checkbox"/> Belize's Tourism Board Reports <input type="checkbox"/> UNWTO Reports <input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> Other (specify)
Means of Verification:		<input type="checkbox"/> Government Infrastructure Assessments <input type="checkbox"/> Adaptation strategy on site-specific for tourism sector completed and available <input type="checkbox"/> Other (specify)
Indicator: 5.6. Number of site-specific infrastructure investment plans for tourism areas reflecting adaptation strategies developed		
Description: Install appropriate infrastructure in local destinations for adaptation to climate change including specific infrastructure related to roads, bathroom facilities, buoys, renovation of docks and wayfinding.	Unit of Measurement: Developed infrastructure investment plans for tourism area	

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Tourism Board Reports <input type="checkbox"/> UNWTO Reports <input type="checkbox"/> Belize's Ministry of Finance Reports
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Tourism Board Reports <input type="checkbox"/> Infrastructure investment plans for tourism area completed and available <input type="checkbox"/> Other (specify)
Indicator:	
5.7. Funds (USD) investment in adaptation-specific and climate-proofed infrastructure in tourism sites	
Description:	Unit of Measurement:
Install appropriate infrastructure in local destinations for adaptation to climate change including specific infrastructure related to roads, bathroom facilities, buoys, renovation of docks and wayfinding.	Yearly climate finance investment on infrastructure in tourism sites
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Tourism Board Reports <input type="checkbox"/> UNWTO Reports <input type="checkbox"/> Belize's Ministry of Finances Reports <input type="checkbox"/> NCCO Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Tourism Board Reports <input type="checkbox"/> Belize's Ministry of Finances Reports <input type="checkbox"/> NCCO Reports <input type="checkbox"/> Other (specify)

6. Biodiversity and Forest Sector	
Indicator:	
6.1. Species Conservation and Recovery Programmes	
Description:	Unit of Measurement:
Tracks initiatives aimed at protecting endangered species from climate-related threats like habitat loss and changing ecosystems.	Yearly number of species under active conservation programmes.
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> CBD Reports <input type="checkbox"/> IUCN Red List Assessments Reports <input type="checkbox"/> Belize's Wildlife Agencies Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> IUCN Red List Variation Data <input type="checkbox"/> Biodiversity Population Inventories <input type="checkbox"/> Other (specify)
Indicator:	
6.2. Resilience of Key Ecosystems	

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

Description: Assesses the ability of critical ecosystems (forests, wetlands, coral reefs) to recover from climate-induced stress.	Unit of Measurement: Yearly percentage of ecosystem coverage maintained or restored.
Sources:	<input type="checkbox"/> CBD Reports <input type="checkbox"/> UNEP Reports <input type="checkbox"/> Belize's Biodiversity Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> Remote Sensing <input type="checkbox"/> Ecological Surveys <input type="checkbox"/> Other (specify)

7. Water Resources sector	
Indicator: 7.1. Groundwater hydrological monitoring network designed	
Description: Design and implement groundwater hydrological monitoring network to inform drought monitoring activity.	Unit of Measurement: Yearly national water reservoirs levels in mt3.
Sources:	<input type="checkbox"/> Government Water Reports <input type="checkbox"/> Belize's Water Services Reports <input type="checkbox"/> Belize's Meteorological Services Reports <input type="checkbox"/> Belize's National Hydrological Services Reports <input type="checkbox"/> NOAA Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> Hydrological Models Results <input type="checkbox"/> FAO's AQUASTAT Database <input type="checkbox"/> Farmers Surveys <input type="checkbox"/> Other (specify)
Indicator: 7.2. Number of groundwater hydrological monitoring stations active	
Description: Design and implement groundwater hydrological monitoring network to inform drought monitoring activity.	Unit of Measurement: Yearly number of groundwater hydrological monitoring active stations
Sources:	<input type="checkbox"/> Government Water Reports <input type="checkbox"/> Belize's Water Services Reports <input type="checkbox"/> Belize's Meteorological Services Reports <input type="checkbox"/> Belize's National Hydrological Services Reports <input type="checkbox"/> NOAA Reports <input type="checkbox"/> Hydrological Models Results <input type="checkbox"/> FAO's AQUASTAT Database <input type="checkbox"/> Other (specify)

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

Means of Verification:		<input type="checkbox"/> Belize's Meteorological Services Reports <input type="checkbox"/> Belize's National Hydrological Services Reports <input type="checkbox"/> Other (specify)
Indicator: 7.3. National hydrological drought action plan and monitoring system developed		
Description: Develop flood controls and drought monitoring (including both meteorological and hydrological drought) including an early warning system for flooding.	Unit of Measurement: Developed a National hydrological drought action plan and monitoring system	
Sources:	<input type="checkbox"/> Government Water Reports <input type="checkbox"/> Belize's Water Services Reports <input type="checkbox"/> Belize's Meteorological Services Reports <input type="checkbox"/> Belize's National Hydrological Services Reports <input type="checkbox"/> NOAA Reports <input type="checkbox"/> Hydrological Models Results <input type="checkbox"/> FAO's AQUASTAT Database <input type="checkbox"/> Other (specify)	
Means of Verification:	<input type="checkbox"/> National hydrological drought action plan and monitoring system completed and available <input type="checkbox"/> Other (specify)	
Indicator: 7.4. National Flood Early Warning System (FEWS) for flooding in place		
Description: Develop flood controls and drought monitoring (including both meteorological and hydrological drought) including an early warning system for flooding.	Unit of Measurement: National Flood Early Warning System (FEWS) developed	
Sources:	<input type="checkbox"/> Government Water Reports <input type="checkbox"/> Belize's Water Services Reports <input type="checkbox"/> Belize's Meteorological Services Reports <input type="checkbox"/> Belize's National Hydrological Services Reports <input type="checkbox"/> NOAA Reports <input type="checkbox"/> Hydrological Models Results <input type="checkbox"/> FAO's AQUASTAT Database <input type="checkbox"/> Other (specify)	
Means of Verification:	<input type="checkbox"/> National Flood Early Warning System (FEWS) developed and available <input type="checkbox"/> Other (specify)	
Indicator: 7.5. IWRM agency launched		
Description: Design and implement an integrated water resources management (IWRM) program in watersheds to reduce the impacts of climate change, including the establishment of an IWRM agency.	Unit of Measurement: IWRM agency created	
Sources:	<input type="checkbox"/> Government Water Reports <input type="checkbox"/> Belize's Water Services Reports <input type="checkbox"/> Belize's National Assembly Reports <input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Belize's Meteorological Services Reports	

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<input type="checkbox"/> Belize's National Hydrological Services Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> IWRM agency created and functioning <input type="checkbox"/> Other (specify)
Indicator: 7.6. National Integrated Water Resources Management programme initiated	
Description: Design and implement an integrated water resources management (IWRM) programme in watersheds to reduce the impacts of climate change, including the establishment of an IWRM agency.	Unit of Measurement: National Integrated Water Resources Management programme executed
Sources:	<input type="checkbox"/> Government Water Reports <input type="checkbox"/> Belize's Water Services Reports <input type="checkbox"/> Belize's National Assembly Reports <input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Belize's Meteorological Services Reports <input type="checkbox"/> Belize's National Hydrological Services Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> National Integrated Water Resources Management programme developed and executed <input type="checkbox"/> Other (specify)
Indicator: 7.7. National Water Resources Adaptation Plan developed	
Description: Design and implement an integrated water resources management (IWRM) programme in watersheds to reduce the impacts of climate change, including the establishment of an IWRM agency.	Unit of Measurement: National Water Resources Adaptation Plan available
Sources:	<input type="checkbox"/> Government Water Reports <input type="checkbox"/> Belize's Water Services Reports <input type="checkbox"/> Belize's National Assembly Reports <input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Belize's Meteorological Services Reports <input type="checkbox"/> Revised NDCs Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Belize's National Hydrological Services Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> National Water Resources Adaptation Plan developed and available <input type="checkbox"/> Other (specify)
Indicator: 7.8. Aquifer characteristics for the transboundary Yucatan Candelaria aquifer determined	
Description: Design and implement an integrated water resources management (IWRM) programme in watersheds to reduce the impacts of climate change, including the establishment of an IWRM agency.	Unit of Measurement: Identified aquifer characteristics for the transboundary Yucatan Candelaria aquifer
Sources:	<input type="checkbox"/> Government Water Reports <input type="checkbox"/> Belize's Water Services Reports

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's National Assembly Reports <input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Belize's Meteorological Services Reports <input type="checkbox"/> Revised NDCs Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Hydrological Models Results <input type="checkbox"/> FAO's AQUASTAT Database <input type="checkbox"/> Belize's National Hydrological Services Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Report on the Yucatan Candelaria aquifer characteristics identified and available <input type="checkbox"/> Other (specify)
Indicator:	
7.9. Adaptation Plan for the Candelaria aquifer in place	
Description:	Unit of Measurement:
Design and implement an integrated water resources management (IWRM) programme in watersheds to reduce the impacts of climate change, including the establishment of an IWRM agency.	Adaptation Plan for the Candelaria aquifer developed and implementing
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Government Water Reports <input type="checkbox"/> Belize's Water Services Reports <input type="checkbox"/> Belize's National Assembly Reports <input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Belize's Meteorological Services Reports <input type="checkbox"/> Revised NDCs Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> Hydrological Models Results <input type="checkbox"/> FAO's AQUASTAT Database <input type="checkbox"/> Belize's National Hydrological Services Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Adaptation Plan for the Candelaria aquifer developed and available <input type="checkbox"/> Other (specify)
Indicator:	
7.10. Funds (USD) investments into climate-proof infrastructure to support water access and resilience	
Description:	Unit of Measurement:
Design and implement an integrated water resources management (IWRM) programme in watersheds to reduce the impacts of climate change, including the establishment of an IWRM agency	Yearly amount of USD investments into climate-proof infrastructure to support water access and resilience
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Government Water Reports <input type="checkbox"/> Belize's Water Services Reports <input type="checkbox"/> Belize's National Assembly Reports <input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Belize's Meteorological Services Reports <input type="checkbox"/> Revised NDCs Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> NCCO Reports <input type="checkbox"/> Hydrological Models Results <input type="checkbox"/> FAO's AQUASTAT Database <input type="checkbox"/> Belize's National Hydrological Services Reports <input type="checkbox"/> Other (specify)

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

Means of Verification:		<input type="checkbox"/> BTRs Reports <input type="checkbox"/> NCCO Reports <input type="checkbox"/> Other (specify)
Indicator: 7.11. Number of hectares of forest restored in key watersheds		
Description: Design and implement an integrated water resources management (IWRM) programme in watersheds to reduce the impacts of climate change, including the establishment of an IWRM agency.	Unit of Measurement: Yearly reforested area (Ha) in key watersheds.	
Sources:	<input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change/Forestry Department Reports <input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> Revised NDCs Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> NCCO Reports <input type="checkbox"/> Other (specify)	
Means of Verification:	<input type="checkbox"/> Belize's Ministry of Sustainable Development and Climate Change/Forestry Department Reports <input type="checkbox"/> Other (specify)	
Indicator: 7.12. National water quality monitoring programme		
Description: Establish a national water quality monitoring programme, coordinated by a national water quality task group and including monitoring activities for national coastal and ground water areas.	Unit of Measurement: National water quality monitoring programme	
Sources:	<input type="checkbox"/> Government Water Reports <input type="checkbox"/> Belize's Water Services Reports <input type="checkbox"/> Belize's National Assembly Reports <input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Belize's Meteorological Services Reports <input type="checkbox"/> Revised NDCs Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> NCCO Reports <input type="checkbox"/> Hydrological Models Results <input type="checkbox"/> FAO's AQUASTAT Database <input type="checkbox"/> Belize's National Hydrological Services Reports <input type="checkbox"/> Other (specify)	
Means of Verification:	<input type="checkbox"/> National water quality monitoring programme developed and in implementation <input type="checkbox"/> Other (specify)	
Indicator: 7.13. National water quality task group named		
Description: Establish a national water quality monitoring programme, coordinated by a national water quality task group and including monitoring activities for national coastal and ground water areas.	Unit of Measurement: National water quality task group named	
Sources:	<input type="checkbox"/> Belize's Water Services Reports	

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Belize's Meteorological Services Reports <input type="checkbox"/> Revised NDCs Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> NCCO Reports <input type="checkbox"/> Belize's National Hydrological Services Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's National Hydrological Services Established the Task Group <input type="checkbox"/> Other (specify)
Indicator:	
7.14. Number of annual meetings of the water quality task group	
Description:	Unit of Measurement:
Establish a national water quality monitoring programme, coordinated by a national water quality task group and including monitoring activities for national coastal and ground water areas	Number of annual meetings for the national water quality task group
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Water Services Reports <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Belize's Meteorological Services Reports <input type="checkbox"/> Revised NDCs Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> NCCO Reports <input type="checkbox"/> Belize's National Hydrological Services Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Water Quality Task Group Meeting Reports <input type="checkbox"/> Other (specify)
Indicator:	
7.15. National comprehensive water quality monitoring system	
Description:	Unit of Measurement:
Establish a national water quality monitoring programme, coordinated by a national water quality task group and including monitoring activities for national coastal and ground water areas.	National comprehensive water quality monitoring system
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Government Water Reports <input type="checkbox"/> Belize's Water Services Reports <input type="checkbox"/> Belize's National Assembly Reports <input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> Belize's Ministry of Agriculture Reports <input type="checkbox"/> Belize's Meteorological Services Reports <input type="checkbox"/> Revised NDCs Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> NCCO Reports <input type="checkbox"/> Hydrological Models Results <input type="checkbox"/> FAO's AQUASTAT Database <input type="checkbox"/> Belize's National Hydrological Services Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> National comprehensive water quality monitoring system completed and in execution <input type="checkbox"/> Other (specify)

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

8. Land Use, Human Settlement & Infrastructure sector	
Indicator: 8.1. National climate vulnerability assessment of human settlements and refugee flows	
Description: Broaden the analysis of the vulnerability of ecosystems to the effects of climate change to protect potential climate refugees through a comprehensive assessment of human settlements and related infrastructure.	Unit of Measurement: Assessment on National climate vulnerability of human settlements and refugee flows
Sources:	<input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> NCCO Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> Assessment on National climate vulnerability of human settlements and refugee flows completed and available <input type="checkbox"/> Other (specify)
Indicator: 8.2. National climate vulnerability assessment of infrastructure	
Description: Broaden the analysis of the vulnerability of ecosystems to the effects of climate change to protect potential climate refugees through a comprehensive assessment of human settlements and related infrastructure	Unit of Measurement: Assessment of the national climate vulnerability of infrastructure
Sources:	<input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> Belize's Ministry of Natural Resource, Petroleum and Mining Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> NCCO Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> Assessment of the national climate vulnerability of infrastructure completed and available <input type="checkbox"/> Other (specify)
Indicator: 8.3. Land Use Policy and Framework	
Description: Implement Land Use Policy and Policy Framework to incorporate responsible and climate-sensitive (and water-sensitive) development and land use	Unit of Measurement: Land Use Policy and Policy Framework
Sources:	<input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> Belize's Ministry of Natural Resource, Petroleum and Mining Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> NCCO Reports <input type="checkbox"/> Other (specify)

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Land Use Policy and Policy Framework completed and available <input type="checkbox"/> Other (specify)
Indicator: 8.4. Land Use Policy and Framework provides mechanism for the incorporation of local and indigenous community land stewardship practices	
Description: Implement Land Use Policy and Policy Framework to incorporate responsible and climate-sensitive (and water-sensitive) development and land use	Unit of Measurement: Land Use Policy and Policy Framework provides mechanism for the incorporation of local and indigenous community land stewardship practices
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> Belize's Ministry of Natural Resource, Petroleum and Mining Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> NCCO Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Land Use Policy and Policy Framework including local and indigenous community land stewardship practices completed and available <input type="checkbox"/> Other (specify)
Indicator: 8.5. Number of climate change adaptation plans for vulnerable areas	
Description: Implement Land Use Policy and Policy Framework to incorporate responsible and climate-sensitive (and water-sensitive) development and land use.	Unit of Measurement: Revised National Climate Change Adaptation Plans for Vulnerable Areas
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> NCCO Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> Revised National Climate Change Adaptation Plans for Vulnerable Areas completed and available <input type="checkbox"/> Other (specify)
Indicator: 8.6. Climate-proofed infrastructure investment plan (NCRIP) for vulnerable areas reflecting adaptation and resilience-building strategies update	
Description: Develop and implement a climate change adaptation strategy/plan for the most vulnerable local and indigenous coastal communities.	Unit of Measurement: NCRIP for vulnerable areas including adaptation and resilience-building strategies update
Sources:	<ul style="list-style-type: none"> <input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> NCCO Reports <input type="checkbox"/> Ministry of Infrastructure Development and Housing Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<ul style="list-style-type: none"> <input type="checkbox"/> NCRIP for vulnerable areas including adaptation and resilience-building strategies updated, developed and available

Identifying and defining the data requirements catering to all the reporting requirements for climate finance

	<input type="checkbox"/> Other (specify)
Indicator: 8.7. Funds (USD) investment in adaptation-specific and climate-proofed infrastructure	
Description: Develop and implement a climate change adaptation strategy/plan for the most vulnerable local and indigenous coastal communities.	Unit of Measurement: Yearly amount of funds (USD) investment in adaptation-specific and climate-proofed infrastructure
Sources:	<input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> BTRs Reports <input type="checkbox"/> NCCO Reports <input type="checkbox"/> Other (specify)
Means of Verification:	<input type="checkbox"/> Belize's Ministry of Finance Reports <input type="checkbox"/> NCCO Reports <input type="checkbox"/> Other (specify)
